The Grand, a Pacific and  
Oceanic Corporation

by Tre e A Morro

ISBN 0 00 000 000 0 p Photos  
Index

Prince George has seen many changes since its beginnings. This book addresses some of the social issues relevant to the advent of this Grand Trunk Pacific Railway. It also sociologically reflects on the economic development of the region, the passenger services and the enhancement of life styles, the telephone system and the railway service.

Tre e Morro is a local historian who has spent most of his life in Prince George where he has interacted with local pioneers. He has encouraged his interest. His work has led to research and documentation of the railway's operations, its development in the north and its impact on our railway heritage.
